## ★ MEMBER TESTIMONIALS ★

"I strongly recommend IIUSA to anyone active in the EB-5 industry. IIUSA is not only the leading trade association, but is absolutely essential to networking with regional centers, developers and projects, as well as professionals such as immigration, securities and corporate counsel, broker-dealers, migration agents, escrow agents, banks, economists, business plan writers, and the entire spectrum of professionals associated with the EB-5 industry that has generated almost \$20 billion in new investment in the last three fiscal years alone, and which has created thousands of new jobs. Being part of IIUSA has been critical to my EB-5 practice in linking me to the global EB-5 network while providing vital cutting-edge knowledge and information, while leading in the advocacy arena."

- BERNARD WOLFSDORF,  
WOLFSDORF ROSENTHAL LLP

There are three key advantages to being a member of IIUSA. The semi-annual Conferences provide members a venue to learn, address industry challenges, and network with other EB-5 professionals. Secondly, IIUSA is the leading industry group for EB-5 Regional Centers and as such is an important voice for its members in legislative policy development and reform. Finally, there are many useful resources available exclusively to members, including the website, publications, emails, and other tools that can be accessed whenever needed. All these benefits can help contribute to your success in a highly competitive industry.

- LAURA KELLY, NES FINANCIAL

Our company joined IIUSA a few years ago as a small regional center. Through networking at IIUSA, I've connected with professionals across the EB-5 industry ranging from attorneys to economists to software gurus. These relationships with EB-5 industry experts have helped me to cultivate projects that are creating jobs and make sense for the communities that our company works in. IIUSA is one-of-a-kind when it comes to representing what a trade association can do for members when they work together to help outsiders understand the intricate workings of the EB-5 industry.
