Club Emigration Inc.

It is a company specializing in investment immigration with 37 years of tradition since the establishment of the Migration Corporation in 1984. Club have been a pioneer in the Korean immigration industry for the last 36 years. We have deep experience in investment-linked immigration programs for Koreans seeking second homes and better opportunities.

Club Migration Co., Ltd. is the nation's top overseas immigration consulting firm with a number of immigrants from the United States, Canada, Australia and New Zealand, to retirement-oriented Malaysia and Fiji, and to investment immigration from Malta, Spain, Portugal and the United Kingdom and Singapore.

We are proud to be a model company without complaints. The reason is that we have always introduced only safe programs through careful verification of the safety and certainty of immigration programs from the perspective of migrants.

It is also very first and only company in the world to open the way for immigration to five different continents. In particular, it is operated with advisor Kang Young-ho, who is entering his 46th year of overseas migration consulting, an American immigration lawyer, a Canadian immigration lawyer, and an excellent immigration law firm group.

We work with professional consultants who have abundant experience and know-how for more than 25 years since joining our company.

Thank you very much.

Jason JD Ghim, Chief Marketing Officer of Club Emigration Inc.

Since 2001, He has been in the immigration business, Working as a marketing executive.
